VICEROY WITH ASTER

FEMALE CANADIAN TIGER SWALLOWTAIL WILD CHERRY

MALE CANADIAN TIGER SWALLOWTAIL WITH WILD CHERRY

FEMALE MONARCH WITH COMMON MILKWEED

Lynn Buckle

MALE MONARCH WITH COMMON MILKWEED

FEMALE BLACK SWALLOWTAIL WITH QUEEN ANNE'S LACE

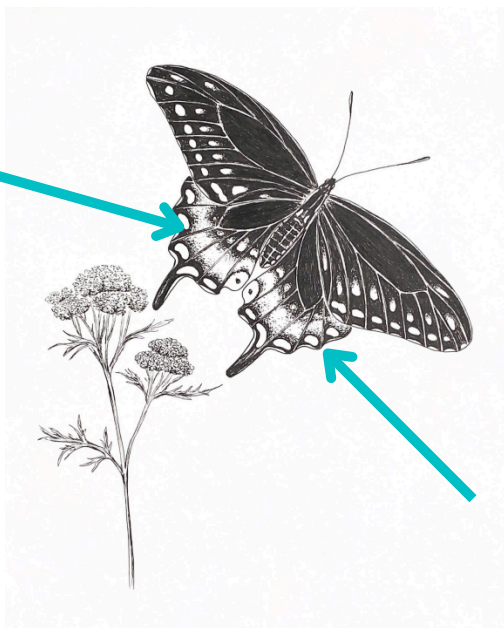

Linn Baskin

MALE BLACK SWALLOWTAIL WITH THISTLE

IDENTIFICATION GUIDE

Male and female tiger swallowtails are both black and yellow, but the female has a beautiful iridescent blue pattern on the rear upper surface of their hind wings

Male and female black swallowtails are both mostly black with a little bit of yellow, but the female has more blue and less yellow on its hind wings

IDENTIFICATION GUIDE

Male and female monarchs both display the brilliant orange and black pattern, but the males have a black spot on a vein of each hind wing

Male and female viceroys are indistinguishable from each other but are often confused with monarchs. Viceroys have a black line that runs from one hindwing across to the other
